

**COUNTY ASSEMBLY OF MOMBASA
THE HANSARD**

Wednesday, 5th August, 2026

Third Assembly – Fifth Session
SIXTY FOURTH SITTING

*[The County Assembly met at 2:30p.m at the County Assembly Buildings]
[The Deputy Speaker (Hon. Fadhili Mwalimu Makarani) in the Chair]*

PRAYERS

STATEMENTS

REQUEST FOR STATEMENT BY HONOURABLE FRANKLINE MAKANGA REGARDING THE DETAILS OF BENEFICIARIES OF COUNTY SCHOLARSHIPS OR FROM DONORS FROM THE YEAR 2022 TO-DATE

The Deputy Speaker (Hon. Makarani): Yes, Honourable Frankline Makanga?

Hon. Makanga: Thank you Mr. Speaker. Honourable Speaker, I beg to request for the following Statement.

Pursuant to the provisions of Standing Order 41(2)(c), I hereby request for a Statement from the Chairperson of the Committee on Education and Vocational Training regarding details of beneficiaries of County scholarships or from donors, that is, development partners and well-wishers from the year, 2022 to-date. Honourable Speaker, in the Statement the Chairperson should provide the following information;

- 1. The total number of beneficiaries for each financial year from 2022 to-date.*
- 2. A breakdown of the beneficiaries by Ward, institution and course of study.*
- 3. The amount awarded to each beneficiary and the source of funding indicating whether the funds are from the County government or from donors.*
- 4. The eligibility criteria and selection process applied in awarding the scholarships or donor-sponsored assistance.*
- 5. The Statement should provide details of the measures established to ensure fairness, transparency, accountability and equitable distribution of the scholarships or donor-sponsored assistance.*

Thank you, Mr. Speaker.

The Deputy Speaker (Hon. Makarani): Thank you. Any Member from the Education Committee? Yes, Honourable Maryam Baimu?

Hon. Baimu: Thank you Mr. Speaker. On behalf of the Committee for Education, I would like Honourable Frankline Makanga to give us at least two weeks so that he can get feedback. Thank you, Honourable Speaker.

The Deputy Speaker (Hon. Makarani): Thank you. And it is well noted.

REQUEST FOR STATEMENT BY HONOURABLE ALLEN KATANA REGARDING THE ACUTE SHORTAGE OF WATER ACROSS THE COUNTY AND THE MEASURES BEING TAKEN BY THE COUNTY GOVERNMENT TO ADDRESS THE PROBLEM

Yes, Honourable Allen Katana?

[Silence]

Yes, Honourable Frankline Makanga?

Hon. Makanga: Honourable Speaker, on behalf of the Honourable Member MCA Shanzu Ward, Honourable Allen Katana I am standing in on his behalf to make a request for Statement.

Pursuant to the provisions of Standing Order 41(2) (c), I hereby request for a Statement from the Chairman Committee on Environment and Water regarding the acute shortage of water across the County and the measures being taken by the County Government to address the problem. Honourable Speaker in the Statement, the Chairman should provide the following information;

- 1. What measures are being taken by the County Government to address the acute shortage of water across the County?*
- 2. The number of households currently connected to the water reticulation network in the County indicating the coverage by Ward.*
- 3. The daily water demand across the County and the current water deficit.*
- 4. The alternative measures that the County has taken to address the acute shortage of water including water tracking, boreholes, kiosks and other interventions.*
- 5. The particulars and names of all water projects undertaken or ongoing in the County from the year 2022 to-date indicating the location, scope, funding source and current status*
- 6. The total expenditure incurred on each of the above water projects from the year 2022 to-date requested by Honourable Allen Katana, MCA Shanzu Ward.*

Thank you.

The Deputy Speaker (Hon. Makarani): Yes, thank you Honourable Makanga. Yes, Honourable Leila Nyache.

Hon. Nyache: Ahsante sana Mheshimiwa Spika. Mheshimiwa Spika nimeisikia hio taarifa lakini ningeomba Jumba hili ama na Mheshimiwa mwenza waweze kutupatia muda wa wiki mbili ndio tuweze kuja na jibu muafaka. Ahsante Mheshimiwa Spika.

The Deputy Speaker (Hon. Makarani): Thank you very much. Yes, Clerk.

REQUEST FOR STATEMENT BY HONOURABLE JACKTONE MADIALO REGARDING THE ENVIRONMENT DEGRADATION AND IMPENDING DISASTER RISK IN MKUPE COMMUNITY, BANGLADESH VILLAGE

Yes, Honourable Jacktone Madialo?

Hon. Madialo: Thank you. Honourable Speaker.

Pursuant to the provisions of Standing Order No. 41(2)(c), I wish to seek Statement from the Chairperson of the Committee on Environment and Solid Waste Management regarding the escalating land degradation and soil erosion affecting residents of Mkupe Community in Bangladesh Village, Mikindani Ward.

Honourable Speaker, residents of Mkupe Community have raised concerns over the continued degradation of land within Bangladesh Village which has resulted in the displacement of several households and poses a significant threat to lives, property and public infrastructure. Of particular concern is the deteriorating condition of the area surrounding Mkupe Bridge, a critical crossing point linking residents of Bangladesh and Mikindani areas.

The residents have indicated that erosion has progressively worsened over time and if left unattended or unaddressed, may lead to further destruction of property, disruption of movement and a potential environmental disaster.

The Community has proposed interventions including the installation of gabions, construction of culverts and rehabilitation of the affected areas through tree planting and other environmental conservation measures.

Honourable Speaker the matter requires urgent attention to safeguard the affected residents, protecting public infrastructure and prevent further environmental degradation within the area.

I, therefore request the Chairperson of the Committee on Environment and Solid Waste Management to furnish this House with a comprehensive report on the following matters;

- 1. The extent and causes of land degradation and soil erosion affecting Mkupe Community in Bangladesh village, Mikindani Ward.
Whether the County Government has conducted any assessment of the affected area and if so, the findings and recommendations thereof.*
- 2. The measures being undertaken by the County Government to mitigate the ongoing land degradation and protect residents, property and public infrastructure, including Mkupe Bridge.*
- 3. Whether there are plans and budgetary allocations for the construction of gabions, culverts, drainage infrastructure, or any other erosion control measures within the affected areas.*
- 4. The timelines within which the County Government intends to implement both short-term and long-term interventions aimed at restoring the affected land and preventing future occurrences.*
- 5. The measures being undertaken to support households affected or displaced by the ongoing land degradation.*

I, thank you, Mr. Speaker, Sir.

The Temporary Speaker (Hon. Makarani): Yes Chairman, Committee on Environment?

[Silence]

Yes, Honourable Mwinyi Mtoto?

Hon. Mwinyi Mtoto: Ahsante sana Mheshimiwa Spika. Mimi kama Naibu wa Mwenyekiti Kamati ya Mazingira naomba nipatiwe wiki mbili tuweze kumjibu. Ahsante.

The Temporary Speaker (Hon. Makarani): Thank you and it is well noted. In two weeks, we will be waiting for the response.

REQUEST FOR STATEMENT BY HONOURABLE JUMA BHALOO REGARDING DETAILS, NATURE TYPE AND STATUS OF WARD-BASED PROJECTS IMPLEMENTED WITHIN THE COUNTY FROM FINANCIAL YEAR 2022/2023 TO-DATE

Yes, Honourable Samir Bhaloo?

Hon. Bhaloo: Good afternoon, Mr. Speaker and thank you. Mr. Speaker, Pursuant to the provisions of Standing Order No. 41(2) (c), I hereby request for a Statement from the Chairperson of the Committee on Finance, Budget and Appropriations regarding details, nature type and status of Ward-Based projects implemented within the County from Financial Year 2022/2023 to-date.

In the Statement, the Chairperson should enquire into the report on the following;

1. *The total number of Ward-Based Projects that have been approved funded and implemented in each Ward within the Mombasa County from Financial Year 2022/ 2023 to-date indicating the financial year, financial allocation and actual expenditure for each project.*
2. *The details and nature of each Ward-Based Project, including project name, title, location, objective or purpose, implementing department or agency and the source of funding.*
3. *The type and category of each Project, e.g., roads, water, education, health, sanitation, agriculture, youth, sports, social amenities, infrastructures, environment, or others implemented in each Ward from year 2022/2023 to-date.*
4. *The status of implementation of each Ward-Based Project, indicating whether it is completed, ongoing, stalled, not started, or abandoned and where applicable, provide the percentage of completion.*
5. *For projects that are ongoing or stalled, provide the reasons for delay and challenges faced and the measures being undertaken to ensure completion.*
6. *For Projects that are completed, provide details on each on date of completion, commissioning, if any. Beneficiaries and impact on outcome achieved.*
7. *For projects that are not started or abandoned provide the reasons, the amount allocated, amount realized if any and the planned or proposed actions to address the status.*
8. *Ward by Ward table showing the number, nature type and status, and financial details allocations releases and expenditure of all Ward based projects from the year 2022 to date, clear indicating the variance if any between funds allocated and the funds utilized.*

Thank you, Mr. Speaker.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, the Chairperson Committee on Finance Budget and Appropriation. I can see the Vice Chair, yes Honourable Hamida.

Hon. Noor: Thank you, Mr. Speaker, we ask for two weeks so that we can get the details for whatever area for MCA for Tudor has asked for so we ask for two weeks. Thank you.

The Deputy Speaker (Hon. Makarani): Thank you Honourable Hamida and it is well noted. Yes, Clerk.

REQUEST FOR STATEMENT BY HONOURABLE SAMIR BHALOO ON MARKETS, CESS, OFFLOADING FEES, BUILDING APPROVAL FEES AND RELATED COUNTY REVENUE STREAMS FROM FINANCIAL YEAR, 2022/2023 TO DATE

Yes, Honourable Samir Bhaloo.

Hon. Bhaloo: Thank you again Mr. Speaker. Pursuant to provision of Standing Order 41 (2C), I hereby request for a Statement from the Chairperson Committee Finance Budget and Appropriations regarding revenue collection, expenditure, accountability and performance of County own source revenue streams from financial year 2022/2023 to date.

In the Statement, the Chairperson should inquire into and report on the following;

- 1. The total revenue collected from market, market stalls fees, market levies, cess, offloading fees, building approval fees, developing permission fees, single business permit and all other sources related streams for each financial year from 2022/2023 to date, indicating the approved targets, actual collections and variance.*
- 2. A breakdown of revenue collection by revenue stream indicating the amount collected from each market, cess collection point, offloading station, building approval category and other relevant revenue sources within Mombasa County.*
- 3. The collection mechanism currently in use including whether the revenue is collected through electronic systems, menu receipting, contacted agents or County Officers and the safeguards in place to prevent the revenue leakages.*
- 4. The total expenditures incurred from the revenue collected under the above streams indicating the amount spent annually, the respective expenditure items, implementing departments and other legal authorities under which such expenditures were incurred.*
- 5. The projects program and services financed using revenue generated from the market cess, offloading fees, building approval fees and related revenue streams indicating the project name, location, budget allocation, expenditure incurred and implementation status.*
- 6. Measures undertaken by the County Government to improve revenue collection efficiency, enhance accountability, eliminate leakages and strengthen financial controls within the County Revenue Management Systems.*
- 7. Whether any audits investigations or revenue performance assessments had been undertaken from this revenue streams from the year 2022/2023 to date and if so, provide the finding, recommendations and actions taken.*
- 8. Details of outstanding revenue arrears, uncollected revenue waivers, write offs or disputed collections including the recent and the measures undertaken to recover or regularize such amounts.*

9. *The amount budgeted and expended on the administration of revenue collections including staffing ICT Systems, enforcement operations, revenue agents, equipment and other revenue operational costs.*
10. *The strategies and reforms being implemented by the County Government of Mombasa to increase own source of revenue while enhancing, transparency, efficiency and accountability and service delivery in accordance to the Constitution of Kenya, the Public Finance Management Act, the County Government Act and all other applicable laws and regulations.*

Thank you, Mr. Speaker.

The Deputy Speaker (Hon. Makarani): Thank you Honourable Samir Bhaloo. Yes, Honourable Hamida, the Vice Chairperson Finance Budget and Appropriation any response?

Hon. Noor: Thank you, Mr. Speaker. Mr. Speaker, we are asking for three weeks, since the years are for 2022/2023 to date so that we bring a more advanced and detailed report into the House. Thank you.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Clerk.

REQUEST FOR STATEMENT BY HONOURABLE MORGAN MATSAKI ON THE OPERATIONS OF AN ALLEGED ILLEGAL RIVER, SAND BALLAST AND BLOCKED STORAGE SITE IN VIKWATANI, MTOPANGA WARD

Yes, Honourable Morgan Matsaki.

The Leader of Minority (Hon. Matsaki): Thank you Honourable Speaker. Honourable Speaker, I stand to read the Statement regarding the operations of an alleged illegal river, sand ballast and blocked storage site along in Vikwatani, Mtopanga Ward. *Honourable Speaker, pursuant to Standing Order 41 (2) (c), I wish to seek a Statement from the Chairperson of the Committee on Lands, Physical Planning and Housing regarding the operation of an alleged illegal river sand ballast and blocks storage and distribution site located along the Vikwatani Area along Blue Field Academy in Mtopanga Ward. Honourable Speaker, residents of Vikwatani have raised serious concerns regarding the continued operation of the said site which is situated adjacent to a learning institution along a narrow road which is used by motorists, pedestrians and school going children. The residents contend that the location and the manner in which the site is being operated pose a risk to public safety to health and the wellbeing of the learners attending the neighboring school. Of particular concern, is a recent accident that occurred at the site resulting in severe injurious to a member of the public including a fractured shoulder and a broken elbow and fractured ribs.*

Residents further alleged that several other accidents have occurred in the area due to the narrow road and increased movement of heavy tracks involved in loading and offloading of the construction materials. Honourable Speaker, the residents further state that the loading and offloading of the sand and excessive materials generate excessive dust which has adversely affected learners and members of the surrounding community. It is alleged that pupils of the neighboring schools are continually exposed to dust pollution exposing them to respiratory and other health complications. The residents have also indicated that complaints regarding the matter have previously been launched with the relevant County departments including environment, land, roads and transport & inspectorate services and other enforcement agencies. However, despite the concerns raised no tangible action has been taken to address the issue;

Honourable Speaker, the continued operation of the site raises questions regarding the compliance with land use regulations, Environmental Management Standards, occupational Safety requirements and Public Health Laws. The matter therefore requires urgent interventions to safeguard public safety, protect school going children and ensure compliancy to county laws and regulations. I, therefore request the Chairperson of the Committee on Lands, Physical Planning and Housing in consultation with the Committees responsible for environment and transport to furnish this House with a comprehensive report on the matters:

- 1. Whether the river sand balance and block storage and distribution cite located in Vikwatani along Blue Field Academy is legally established and operating with all the required approvals, permits and licenses from the relevant County and National Government Agencies.*
- 2. Whether the site underwent the necessary environment impact, assessments and Lands use approvals before commencing operations.*
- 3. The measures being undertaken by the County Government to address the safety concerns arising from the operations of the site including the reported accidents and risks posed to road users and pedestrians.*
- 4. The steps being taken to mitigate dust pollution and other environmental and public health hazards affecting learners at the neighboring schools and residents of the surrounding area.*
- 5. Whether the County Government has conducted expenses of the site following complains launched by residents and if so, findings and recommendations thereof.*
- 6. The enforcement actions if any, that have been undertaken against the operators of the site for any violations of County laws regulations or permit conditions.*
- 7. The immediate and long term measures the County Government intends to undertake to protect public safety preserve environment and ensure compliance with applicable laws and regulations.*

Thank you, Honourable Speaker.

The Deputy Speaker (Hon. Makarani): Thank you Honourable Morgan Matsaki, the Minority Leader. Honourable Members, following the Statement from Honourable Morgan Matsaki I am ordering the Chairperson Committee on Lands, Chairperson Committee on Transport and Chairperson Committee on Environment to liaise and bring back the report to this Honourable House in two weeks' time.

RESPONSE TO STATEMENT BY CHAIRPERSON COMMITTEE ON LABOUR AND PUBLIC
ADMINISTRATION, HONOURABLE JACTONE MADIALO ON THE STATUS OF WELFARE, ALLOWANCE
AND STATUTORY DEDUCTIONS OF HEALTHCARE WORKERS IN MOMBASA COUNTY

Yes, Honourable Jactone Madialo, please respond.

Hon. Madialo: Thank you Honourable Speaker. Honourable Speaker, I beg to present the summary of a response to the Statement sought by Honourable Kibwana Swaleh requested in this House on the 48th Sitting seeking to know the status of welfare, allowance and statutory deductions of healthcare workers in Mombasa County.

'The Committee observed that while the County Government has made progress in strengthening public service administration; challenges remain in human resource planning, staffing levels, and employee welfare and performance management. Similar concerns have

previously been highlighted by the Committee in its oversight work on human resource gaps and public service administration.

Honourable Speaker, the Committee considered the response submitted by the Mombasa County Public Service Board regarding the concerns raised by the Honourable Kibwana on Health Care workers. The County Public Service Board informed the Committee that it recruited and appointed the Health Care workers pursuant to section 59(1) of the County Governments Act...

Let me just jump because it is a bit voluminous.

'The Board further outlined the measures undertaken jointly with the Department of Health to improve the welfare, working conditions, and career progression of healthcare workers. These include:

- 1. Continuous recruitment of healthcare workers to address staffing shortages and reduce workload pressures.*
- 2. Replacement of staff lost through retirement, resignation, and other forms of attrition.*
- 3. Advocacy for optimal staffing levels based on departmental human resource requirements.*
- 4. Ongoing regularization of casual staff within the health department through the issuance of administrative circulars and the process of regularizing technical casual employees.*
- 5. Processing promotions for eligible healthcare workers in accordance with approved schemes of service while ensuring fairness, transparency and merit-based promotion.*
- 6. Facilitating the implementation of approved career progression structures for various healthcare cadres.*
- 7. Advising the County Government on human resource policies aimed at improving the working environment within health facilities.*
- 8. Conducting monitoring and evaluation exercises to assess staffing and operational challenges affecting healthcare workers.*
- 9. Advising the Department of Health on matters relating to remuneration, allowances and employee benefits.*

The Board concluded by reaffirming its commitment to working collaboratively with all stakeholders to ensure effective management of human resources within the health sector and indicated that supporting documentation on the measures undertaken was attached to its submission.

Honourable Speaker, that is a summary of the Board's response as considered by the Committee. Attached herein is the documentation to support the same. Signed, Honourable Jactone Madialo Chairperson Committee on Labour and Public Administration so, it is voluminous. It is attached here. Thank you.

The Deputy Speaker (Hon. Makarani): Thank you, Honourable Jactone Madialo. Yes, Clerk?

MOTION

COUNTYWIDE FUMIGATION AND VECTOR CONTROL PROGRAMME

Yes, Honourable Member from Mikindani Ward, Honourable Madialo Jactone?

Hon. Madialo: Thank you, Honourable Speaker. I beg to move the following Motion;

AWARE THAT article 42 of the Constitution of Kenya, 2010 guarantees every person the right to a clean and health environment;

FURTHER AWARE THAT part 2 of the Fourth Schedule to the Constitution mandates County Government to provide services related to public health, sanitation, and disease prevention;

COGNIZANT THAT the County of Mombasa continues to experience increased cases of vector-borne and communicable diseases including malaria, dengue fever, chikungunya, and other health conditions associated with mosquitoes, flies, rodents and other disease-causing pests;

CONCERNED THAT poor waste disposal, stagnant water, clogged drainage systems, and unregulated dumping sites across the various wards have created breeding grounds for vectors and pests. Thereby exposing residents to significant public health risks;

NOTING THAT periodic fumigation and vector control interventions have proven effective in reducing the prevalence of disease-causing pests and improving public health outcomes in urban and peri-urban areas;

FURTHER NOTING THAT several Wards within Mombasa County have not benefited from a coordinated and sustained fumigation programme despite recurring complaints from residents regarding mosquito infestations and related health concerns;

Now, therefore, this County Assembly RESOLVES that the County Executive Committee Member responsible for health services in collaboration with the department responsible for Environment and Solid Waste Management:

- 1. Develop and implement comprehensive, country-wide fumigation and vector control programme covering all Wards within Mombasa County.*
- 2. Conduct regular fumigation exercises in public spaces, residential areas, markets, drainage channels, dump sites, schools, health facilities and other identified high-risk areas.*
- 3. Establish a schedule for routine fumigation and publicize the same to the residents through appropriate communication channels.*
- 4. Undertake environmental cleanup campaigns, drainage maintenance, and awareness initiatives aimed at eliminating breeding sites for mosquitoes and other disease vectors.*
- 5. Allocate adequate resources in the county budget to support sustainable fumigation and vector control interventions across all Wards and lastly,*
- 6. Submit a status report to the County Assembly within 60 days of adoption of this Motion outlining the implementation plan, timelines, budgetary requirements, and expected outcomes of the programme.*

I, thank you. I will request Honourable Frankline Makanga to second.

The Deputy Speaker (Hon. Makarani): Yes, Honourable Frankline?

Hon. Makanga: I second, Mr. Speaker.

The Deputy Speaker (Hon. Makarani): Thank you, Honourable Members. I now propose a question that the Motion by Honourable Jactone Madialo, MCA Mikindani Ward on Countywide fumigation and vector control programme be considered by this Honourable House in the same terms as moved.

[Question proposed and agreed to]

Yes, Honourable Jactone Madialo the Motion is now on the floor of the House.

Hon. Madialo: Thank you, Honourable Speaker. I will be very brief because I think this is straightforward. The Constitution of Kenya, 2010 guarantees every citizen the right to access healthcare services and also to live in a healthy and clean environment so, this Motion goes to ensure that fumigation is done regularly. Regularly. I have been a resident of Mombasa for over 40 years and pre-devolution, during the times of the Municipal councils, we used to see fumigation happen regularly and that fumigation would be done to the furthest ends of the County or the districts at that particular time. When devolution came, Counties were empowered, even financially and also services were devolved, health services devolved, environmental services are also devolved to Counties but what is saddening is that we have seen a reduction of this exercise as compared to the times of the municipal councils yet Counties have more resources compared to during the times of municipalities. When I was planning to table this Motion, I asked around and a few people told me that, yes, we have seen fumigation happen. When I asked them where, they said, maybe in town here and when I asked them how regularly, they said, no, maybe twice in a year. That one should not happen. We can do better. Fumigation should be done regularly. So, I urge my fellow members to support me in this motion, because I believe that where we are coming from, even right now, there are a lot of mosquitoes. A lot of mosquitoes. There are also a lot of flies. These vectors cause diseases. We should be proactive. We should, by passing of this Motion, the Department on Health should be proactive in doing this exercise regularly. I thank you, Mr. Speaker.

The Deputy Speaker (Hon. Makarani): Yes, Honourable Hamida.

Hon. Noor: Thank you, Mr. Speaker for giving me the chance to view my input on this Motion, I do support the Motion first of all; secondly Mr. Speaker fumigation should be done every other season. Right now, as we know, we have a lot of coughing going on! We do not know the reason. Secondly, we have malaria, Chikungunya and so forth right now, as I am speaking to you and standing here Mr. Speaker, we have a lot of visitors that have come to our County and I think we need those protections to be done for us, so that when the visitors themselves will come to Mombasa County, they do not go back with a virus from our Counties. But with the fumigation, I think we should emphasize on having them to be done every other season that we are going to a new season that is coming up. If it is the rainy season that is over, we have to do it; and when it is the hot season for our summertime, we have to do it. So, for that, even during the municipality time, Mr. Speaker, these things were being done at our areas where we live. With the County government, I think we have more financial budgets then we should be doing it, because devolution has done everything in other Counties. So, for this, I emphasize and I support the Motion. Thank you very much.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Honourable Pamela.

Hon. Ojala: Thank you Mr. Speaker for the opportunity. First and foremost, I would like to thank the Almighty God for having given us this golden opportunity to see the day of today, Mr. Speaker. Mr. Speaker, I also stand to support the Motion, Countywide Fumigation and

Vector Control Programme. Mr. Speaker, allow me to congratulate the Honourable Member of Mikindani Ward, Honourable Jactone Madialo, for bringing this important Motion to this Honourable House this afternoon; it is true that the County continues to experience increased diseases, increased cases of vector-borne and communicable diseases such as malaria, chikungunya and dengue fever, Mr. Speaker. Mr. Speaker, when you walk around the Mombasa County, you will realize that there is a lot of legal dumpsites. There is a lot of...., if you check the drainage across the County Mr. Speaker you realize that it is not properly managed, if the regular fumigation will be emphasized I think these diseases like chikungunya, malaria will be reduced. Mr. Speaker, again the residents of Mombasa will be having a conducive environment for them without wasting time, I stand to support the Motion. Thank you.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Honourable Samir Bhaloo?

Hon. Bhaloo: Thank you, Mr. Speaker. I want to thank my fellow brother, my fellow Honourable Member, Honourable Madialo for bringing this Motion. Mr. Speaker, I must say that this Department of Environment is either taking us for a fool or maybe trying to con the residents of Mombasa. Mr. Speaker, in each and every business permit there is fumigation charges I believe it is about Ksh. 2,000 or so..., if you look at a business permit, they are charged for fumigation charges and yet, the people, the business people are not given these services. At the same time, this department is the same department that is charging the residents of Mombasa Ksh. 500 for waste collecting and yet it is not done. Mr. Speaker, I think this is a serious matter and we should look into this and I fully support this Motion. Thank you, Mr. Speaker.

[Applause]

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Honourable Frankline?

Hon. Makanga: Thank you, Mr. Speaker.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Honourable Frankline?

Hon. Makanga: Thank you Mr. Speaker. As a Seconder of this Motion by the Honourable Member, I join all the other Members in supporting the same and we as leaders; elected by the people and I remember when we were being sworn in while taking oath Honourable Speaker we committed to God and the people that we shall protect the Constitution and Honourable Speaker in our preamble of the Constitution, it is clearly highlighted that we have a responsibility and allow me to read, Honourable Speaker, that our constitution, being the supreme law of the land, says that,

'We the people of Kenya are acknowledging the supremacy of the Almighty God of all creation, honoring those who heroically struggle to bring freedom and justice to our land, proud of our ethnic, cultural and religious diversity and determined to live in peace and unity as one indivisible sovereign nation, respectively of the environment which is our heritage and determined to sustain it for the benefit of future generations'.

Honourable Speaker, the spirit behind our Constitution and having the preamble coming first is to draw our attention to the spirit of this very important document that we swore to protect. It is very sad Honourable Speaker that if today we as an Assembly on our fourth year, we stand here again to analyze how we have performed or the government has performed as regards its functions. Honourable Speaker, when you go to the Schedule 4 of the Constitution of Kenya, 2010 and allow me to read part of our functions, you will be shocked that whatever

Honourable Member is moving this House to adopt as resolutions is a responsibility that we are supposed to be doing Honourable Speaker and many times out here when we meet those that we are serving, they tell us we are taking responsibilities that are not ours, while not doing the responsibilities that are enshrined in our Constitution as roles to play. So, Honourable Speaker Schedule 4 of the Constitution of Kenya, 2010 highlights our responsibilities one of them being the promotion of public health and for public health to be promoted is one of the only ways that can help us improve the quality of life of our people by making sure that we have a clean environment, we have drained swamps, we have our drainages again which is clearly highlighted in our Constitution, that it is a function that we need to maintain in those drainages within our County. So, Honourable Speaker today when you hear the Honourable Member lamenting and moving this House to take decisive action and making resolutions to have fumigation enacted or implemented in our County, it is to mean that our leadership has failed the Mombasa residents by failing to work within the Constitutional mandate.

Therefore, Honourable Speaker it is our responsibility and my prayer that we as leaders we will take this up, let there be fumigation because the number of hospital bills right now we Members, we are contributing to pay, simply because one has Chikungunya or one has Malaria or other waterborne diseases are so many Honourable Speaker. So, I believe the decision we will make through your office Honourable Speaker, you will also cause the Chairperson Committee on Implementation; Honourable Samuel Mwaura to have his Committee proactive because we have passed over 50 Motions in this House but we even do not have a database of how many of these Motions have been implemented and some of these Motions are very critical Motions. Therefore, Honourable Speaker as this House adopts this Motion and make resolutions we pray that we will have is implementation not for optics, not for Public Relations, not for the campaigns ahead of us but because it is a responsibility that all of us swore here and took an oath that we shall defend and protect the Constitution. Thank you so much Honourable Speaker and I congratulate you Honourable Member for Mikindani for always being proactive and pro-people. May God bless you and elevate you even into an office of an Archbishop in the near future. Thank you so much.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Honourable Florence?

Hon. Kachumbo: Thank you, Mr. Speaker for this opportunity I also stand to support this Motion like my other colleagues. It is true that there have been an outbreak of a lot of diseases; the waterborne, vector-borne diseases like also the dengue fever is more frequent nowadays, the chikungunya also. I stand to also congratulate Honourable Member for doing this wonderful job and I would request if the Department of Environment would actually take this matter seriously and if they can come up with a program of a routine fumigation program that they can do maybe even on schools during the period where the children have closed school, the holiday period maybe for the ECDEs centers and also the hospitals also we see that there is poor drainage in Mombasa and so this will be a good thing for the people of Mombasa. Thank you.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Honourable Bernard Ogutu?

Hon. Ogutu: Thank you Mr. Speaker Sir. Mr. Speaker I also join other colleagues in supporting this Motion, Mr. Speaker I also thank the Mover of this Motion Honourable Jactone Madialo. Mr. Speaker, it is important also to note that the Mover is a Member of Health Committee and for that reason, maybe he will declare interest when he is responding to the Motion and good enough for the purposes of implementation, he has given us that Clause 6 so

that after 60 days, the Committees involved will bring a response to the House as you will guide. So, I think for the issue of implementation it is neither here nor there, it must be implemented because if the Honourable Member is a Member of Health Committee, Honourable Frankline is a Member of Health Committee and we have able Members in that Committee Mr. Speaker, so we are going to do that work and we promise that after those 60 days, we will provide a very elaborate report based on your direction Mr. Speaker. Thank you and may God bless the Mover MP for Jomvu.

[Applause]

The Deputy Speaker (Hon. Makarani): Yes, Honourable Mwaura?

Hon. Mwaura: Thank you Mr. Speaker for also giving me an opportunity to hear my views on this particular Motion. Mr. Speaker, I stand to support the Motion and thank Honourable Madialo for this wonderful Motion, I also want to thank the Honourable Member who has just contributed to this, the Chair for Health because he has just indicated that implementation is not only a duty for the Implementation Committee even other Committees are very important in ensuring that Motions are implemented. So, Mr. Speaker our County and many other Counties rush when there are outbreaks but this Motion seeks to heal that disease because it is not that we should wait for disease outbreaks to come up so that we do fumigation; it is a responsibility of the County Government of Mombasa to ensure that its residents and the people of Mombasa are secure from Malaria and other related diseases. So, Mr. Speaker I stand to support this Motion. Thank you.

The Deputy Speaker (Hon. Makarani): Thank you. Yes, Honourable Madialo, please reply.

Hon. Madialo: I would like to take this opportunity to thank all Members who have supported this Motion in their statements and I believe when the question shall be put, they shall follow it up with an affirmative I do not have any doubt that this shall be implemented because as a Member of this Assembly who have passed several Motions, I have observed that the *Waziri* for Health has always been proactive in implementing Motions that we pass here so I believe this shall also follow the same route. I thank you Honourable Speaker.

The Deputy Speaker (Hon. Makarani): Thank you Honourable Jactone Madialo plus the Honourable Members present. I now stand to put the question that the Motion by Honourable Jactone Madialo, MCA Mikindani Ward on County-Wide Fumigation and Vector Control Program be adopted by this Honourable House in the same terms as moved?

[Question put and agreed to]

The Motion by Honourable Jactone Madialo on County-Wide Fumigation and Vector Control Program is adopted by this House.

[Applause]

ADJOURNMENT
