[Interruption]

Hon. Noor: Honourable Speaker, with your permission Sir, I think everybody has the statement with them and I think everybody can go through it instead of the Honourable Member going through all.

The Temporary Speaker (Hon. Bwire): Yes I agree with you Honourable Member but you know the response must also be captured in the Hansard. Hon. Mwaka Bakari: I repeat.

The Temporary Speaker (Hon. Bwire): Welcome.

Hon. Mwaka Bakari: Statement response on street lights in Kipevu Ward.

Mr. Speaker Sir, I stand to give a statement response on the status of street lights in Kipevu which was requested by Honourable Faith Mwende during its 115th Sitting on Wednesday, 27th October, 2021. Mr. Speaker Sir, the Department has put up a high mast in Kipevu Ward at Akamba Woodcraft. Further we have installed several streetlights in Kikoko area and Foxin area as well as regular maintenance of the HPS network within various areas of the Ward. Mr. Speaker Sir, the most recent site visit to the Ward being on 24th January, 2022 where a number of control boxes were repaired, and faults were eliminated. Mr. Speaker Sir, for more information, please find the attached report of the works done since the year 2020 with attachments of signed forms. Thanks you.

The Temporary Speaker (Hon. Bwire): Thank you Honourable Mwaka Bakari for that nice response. I think Honourable Members as said by the Vice Chair, they are attached reports on the work that has been done by the Department and I think you have the copies you can just go through. This mostly concerns the author of the statement, the area MCA Kipevu and in case Honourable Faith Mwende you are not in agreement with the response you can raise the issue either with us or with the Committee at the Committee level. Yes Clerk?
